Subject: URGENT — Collective Formal Notice and Final Warning Regarding 5 Months of Unpaid Wages (Chaitra 2082 – Shrawan 2083)

Dear Mr. Bhandari,

We, the undersigned employees of IOXET Labs, are writing to formally and collectively address the continued non-payment of our salaries. As of today, August 2, 2026, we have not received our wages for the period of Chaitra 2082 through Shrawan 2083, a total of five (5) months.

Despite our continued dedication to our roles and full performance of our assigned duties and responsibilities throughout this period, we have not been compensated. This prolonged non-payment constitutes a fundamental breach of our employment contracts and a violation of applicable labour laws, including our statutory right to timely payment of wages. This situation has become financially and personally unsustainable for all of our families and us.

This letter constitutes our final warning to management before we pursue formal and legal remedies.

We collectively demand that all outstanding wages for the above period be paid in full to each of the undersigned employees, no later than the end of Shrawan 2083 [August 16, 2026].

Please be advised that if full payment of all outstanding wages is not received by this deadline, we will, without further notice, take the following actions:

1. Treat this failure as constructive dismissal and resign from our positions effective immediately.
2. File a formal complaint with the Labour and Employment Office under the Department of Labour and Occupational Safety, on behalf of all undersigned employees, regarding the non-payment of wages.
3. Initiate legal proceedings to recover all unpaid wages, along with any applicable statutory penalties, interest, and legal costs, to the fullest extent permitted by law.

We would strongly prefer to resolve this matter amicably and to continue our employment with IOXET Labs. However, immediate and full payment of all outstanding wages is required for that to happen. We trust that management will treat this matter with the urgency it demands.

Sincerely,

The undersigned employees of IOXET Labs:

1. Shubham Ghimire.(*Frontend Developer*)
 2. Laxmi Regmi. (*Frontend Developer*)
 3. Diwas Gauli.(*Backend Developer*)
 4. Kaustuv Bastakoti.(*Backend Developer*)
 5. Pradishya Badal.(*UI/UX Designer*)
 6. Rohan Shrestha.(*Frontend Developer*)
 7. Kranti Kumar Shah. (*Frontend Developer*)
 8. Komal Jha. (QA)
